RESEARCH INTERESTS

I study how LLM agents behave and how to make them more reliable and better aligned with human needs and values. My work spans behavioral evaluation, value measurement, tool use, and user interaction. I am also interested in social agents that model the values, personalities, and changing behavior of people and fictional characters.

EDUCATION

Seoul National University, Seoul, South Korea — Sep 2025 – Present
Integrated M.S.–Ph.D., Graduate School of Data Science
Advisor: Yohan Jo, HOLI Lab (Human-Oriented Language Intelligence)

Hanyang University, Seoul, South Korea — Mar 2022 – Aug 2025
B.I.S. Department of Information Systems — Overall GPA: 4.35/4.5 | Major GPA: 4.35/4.5

RESEARCH EXPERIENCE

Seoul National University, HOLI Lab — Seoul, South Korea
Undergraduate Research Intern — Jul 2024 – Aug 2025

WORK EXPERIENCE

LG Electronics, H&A Sound/Image Intelligence R&D Lab — Seoul, South Korea
Intern — Mar 2024 – Jun 2024

- Enhanced LLM-based Web Question Answering using RAG and multi-agent approaches
- Developed WAAG, an automated QA evaluation system with 40% accuracy improvement
- Achieved highest level in LG SW Competency Certification Test

US 8th Army, Korean Augmentation To the United States Army — Pyeongtaek, South Korea
Sergeant (Senior KATUSA) — May 2020 – Nov 2021

- Served in US 8th Army as part of the mandatory military service program
- Received Certificate of Appreciation for exceptional service

SCHOLARSHIPS

Presidential Science Scholarship for Graduate Students — South Korea
Ministry of Science and ICT — 2026 – 2027
