RESEARCH INTERESTS

I study how to understand and shape agents to better meet human needs.

Understanding agents

Assessing expressed values and behavioral tendencies. [ACL '25] [EMNLP '26] [arXiv '26]
Diagnosing failures in user and tool interactions. [ICLR '26] [arXiv '26]

Shaping agents

Modeling human responses across traits, situations, and evolving personas. [TACL '26] [EMNLP '26]
Improving agent decisions and tool use through training and interaction design. [ACL '26]
